EVANSTON, ILLINOIS

UNIVERSITY SEAL AND MOTTO

Soon after Northwestern University was founded, its Board of Trustees adopted an official corporate seal. This seal, approved on June 26, 1856, consisted of an open book surrounded by rays of light and circled by the words *Northwestern University, Evanston, Illinois*.

Thirty years later Daniel Bonbright, professor of Latin and a member of Northwestern's original faculty, redesigned

the seal, retaining the book and light rays and adding two quotations. On the pages of the open book he placed a Greek quotation from the Gospel of John, chapter 1, verse 14, translating to *The Word . . . full of grace and truth*. Circling the book are the first three words, in Latin, of the University motto: *Quaecumque sunt vera* (Whatsoever things are true). The outer border of the seal carries the name of the University

and the date of its founding. This seal, which remains Northwestern's official signature, was approved by the Board of Trustees on December 5, 1890.

The full text of the University motto, adopted on June 17, 1890, is from the Epistle of Paul the Apostle to the Philippians, chapter 4, verse 8 (King James Version).

NORTHWESTERN UNIVERSITY

*Whatsoever things are true,
whatsoever things are honest,
whatsoever things are just,
whatsoever things are pure,
whatsoever things are lovely,
whatsoever things are of good report;
if there be any virtue,
and if there be any praise,
think on these things.*

To our guests

Commencement is the highlight of the academic year. It is that significant occasion, both solemn and joyful, when we honor those students who have completed their course of study. Commencement is important to all of you, the University, and its faculty, staff, and students. While the University respects the rights of all to express their views, we respectfully expect and require that any such expressions during these Commencement proceedings not disrupt the ceremony nor prevent others in the audience from enjoying the ceremony. To enhance the dignity of the event, you are respectfully requested to avoid unnecessary conversation and moving about during the ceremony.

Please silence all cellphones and pagers. Guests are not permitted on the field at any time.

Smoking is not permitted in Ryan Field or McGaw Memorial Hall.

MORTON SCHAPIRO

President

Morton Schapiro began his term as the 16th president of Northwestern University on September 1, 2009. He is a professor of economics in Northwestern's Judd A. and Marjorie Weinberg College of Arts and Sciences and also holds appointments in the J. L. Kellogg School of Management and the School of Education and Social Policy.

President Schapiro is among the nation's leading authorities on the economics of higher education, with particular expertise in the area of college financing and affordability and on trends in educational costs and student aid. He has testified before US Senate and House committees on economic and educational issues and is widely quoted in the national media on those issues.

Previously President Schapiro was president of Williams College from 2000 to 2009. Earlier he had served as a member of the Williams College faculty from 1980 to 1991 as professor of economics and assistant provost. In 1991 he went to the University of Southern California, where he served as chair of the Department of Economics until 1994 and then as dean of the College of Letters, Arts and Sciences until 2000. During his last two years as dean, he also served as the university's vice president for planning.

President Schapiro has written more than 100 articles and five books and has edited two others. He has received research grants and contracts from the National Science Foundation, the US Department of Education, the World Bank, the Spencer Foundation, the Andrew W. Mellon Foundation, the College Board, the Organization for Economic Cooperation and Development, and other groups to study the economics of higher education and related topics. In 2010 he was elected a fellow of the American Academy of Arts and Sciences.

He received his bachelor's degree in economics from Hofstra University and his doctorate from the University of Pennsylvania.

WILLIAM A. OSBORN

Chair, Board of Trustees

William A. Osborn is retired chairman and chief executive officer of Northern Trust Corporation.

Born and raised in Culver, Indiana, Mr. Osborn joined Northern Trust in 1970 and subsequently held leadership positions in the commercial banking and personal financial services business units. Named president and chief operating officer in December 1993, he became chief executive officer (in addition to president) in June 1995 and was additionally named chairman the following October. Mr. Osborn ended his tenure as chief executive officer at the end of 2007 and his tenure as chairman in November 2009.

Mr. Osborn is chairman of the Chicago Symphony Orchestra Association and a director of Abbott Laboratories, Caterpillar Inc., General Dynamics Corporation, and the Tribune Company. In addition to chairing Northwestern's Board of Trustees, he is a member of the Advisory Board of the J. L. Kellogg School of Management. He is on the Lyric Opera of Chicago board and is a member of the board of trustees of the Museum of Science and Industry. Also a director of the Terra Foundation for American Art, he serves on the board

of directors of Northwestern Memorial HealthCare and New Schools for Chicago. He is a member of the board of managers of the YMCA of Metropolitan Chicago. Mr. Osborn is a director of the Chicago Council on Global Affairs and the Economic Club of Chicago. He is past chairman of the Commercial Club of Chicago, the Civic Committee of the Commercial Club of Chicago, and the United Way of Metropolitan Chicago Inc. He is a life trustee of the Chicago Botanic Garden and the Chicago Urban League.

Mr. Osborn holds BA and MBA degrees from Northwestern University.

HISTORY OF NORTHWESTERN

The founding of Northwestern University by nine devout Methodists embodied a mixture of religious conviction and secular optimism that is uniquely American. Meeting above a hardware store in the burgeoning frontier town of Chicago, these nine men resolved on May 31, 1850, to establish an institution of “the highest order of excellence” to serve the people of the original Northwest Territory as established by the Northwest Ordinance of 1787 (Ohio, Indiana, Illinois, Michigan, Wisconsin, and part of Minnesota). The 1851 Act of Incorporation creating Northwestern University contained a provision reflecting the strong religious beliefs of its founders but requiring no particular religious faith of students or members of the faculty.

Only one of the founders, physician John Evans, was a college graduate. The quintessential renaissance man, he built railroads, founded both the Illinois Medical Society and the Illinois Republican Party, and was a confidant of Abraham Lincoln, who appointed him governor of the Colorado Territory. Evans guided Northwestern during its critical early years, chairing the Board of Trustees from the time of the University’s founding in 1851 until his death in 1897. The town that grew up around Northwestern was named Evanston in his honor.

Northwestern grew and prospered under Evans’s stewardship. In 1853 the University bought and began to develop 379 acres of lakeshore farmland. By 1855 the University had completed its first building and opened a College of Liberal Arts with two faculty members and ten male students. By 1869 Northwestern had admitted its first female students; four years later, it negotiated a merger with the Evanston College for Ladies, whose president, eminent suffragette and temperance movement leader Frances E. Willard, became Northwestern’s first dean of women.

By 1900 Northwestern consisted of not only a liberal arts college but also six undergraduate and graduate professional schools, including the schools of law and medicine in Chicago. With the establishment of the Graduate School in 1910, Northwestern adopted the German university model of providing graduate as well as undergraduate instruction, emphasizing research along with teaching.

The University’s development since then has paralleled the growth of metropolitan Chicago. Today Northwestern is a private research university of distinction, with 11 academic divisions located on two lakefront campuses in Evanston and Chicago; Northwestern University in Qatar opened in Doha in 2008. The University has approximately 3,100 full-time faculty, 16,000 full-time students, and an annual budget of more than \$1.9 billion. Northwestern’s vision of excellence—although faithful to its founding—invigorates a territory far beyond the old Northwest Territory through the accomplishments of its alumni and by virtue of a distinguished faculty and high-achieving student body drawn from across the nation and around the world.

SCHOOLS OF THE UNIVERSITY

The **Judd A. and Marjorie Weinberg College of Arts and Sciences**, established in 1851 as the College of Liberal Arts, offers the degree of bachelor of arts. Through the School of Continuing Studies, the Weinberg College of Arts and Sciences also offers the degrees of bachelor of philosophy and bachelor of science in general studies.

The **School of Communication**, established in 1878 as the School of Oratory and later renamed the School of Speech, offers the degrees of bachelor of arts in communication and bachelor of science in communication as well as two graduate degrees, doctor of audiology and master of science in communication. Through the School of Continuing Studies, the School of Communication also offers the degree of bachelor of philosophy in communication.

The **School of Continuing Studies**, established in 1933 as University College, offers the degrees of master of arts in creative writing, liberal studies, literature, public policy and administration, and sports administration; master of fine arts in creative writing; and master of science in clinical research and regulatory administration, computer information systems, information systems, medical informatics, predictive analytics, and quality assurance and regulatory science. The school also offers courses leading to the degrees of bachelor of philosophy and bachelor of science in general studies, conferred by the Weinberg College of Arts and Sciences, and the degree of bachelor of philosophy in communication, conferred by the School of Communication.

The **School of Education and Social Policy**, established in 1926 as the School of Education, offers the degrees of bachelor of science in education and social policy and master of science in education and social policy, in higher education administration and policy, and in learning and organizational change.

The **Robert R. McCormick School of Engineering and Applied Science**, established in 1909 as the College of Engineering, offers the degrees of bachelor of science, master of engineering management, and master of science in biotechnology, information technology, product design and development management, and project management.

The **Graduate School**, established in 1910, administers advanced programs leading to the degrees of doctor of philosophy, master of arts, master of fine arts, master of public health, and master of science.

The **Medill School of Journalism, Media, Integrated Marketing Communications**, established in 1921 and named in honor of pioneering Chicago journalist Joseph Medill, offers the degree of bachelor of science in journalism as well as master of science degrees in journalism and integrated marketing communications.

The **School of Law**, established in 1859, offers the degrees of juris doctor, master of laws, master of laws in international human rights, master of laws in taxation, master of studies in law, and doctor of juridical science. The school also offers the Master of Laws International Executive Master's Program in Israel, South Korea, and Spain.

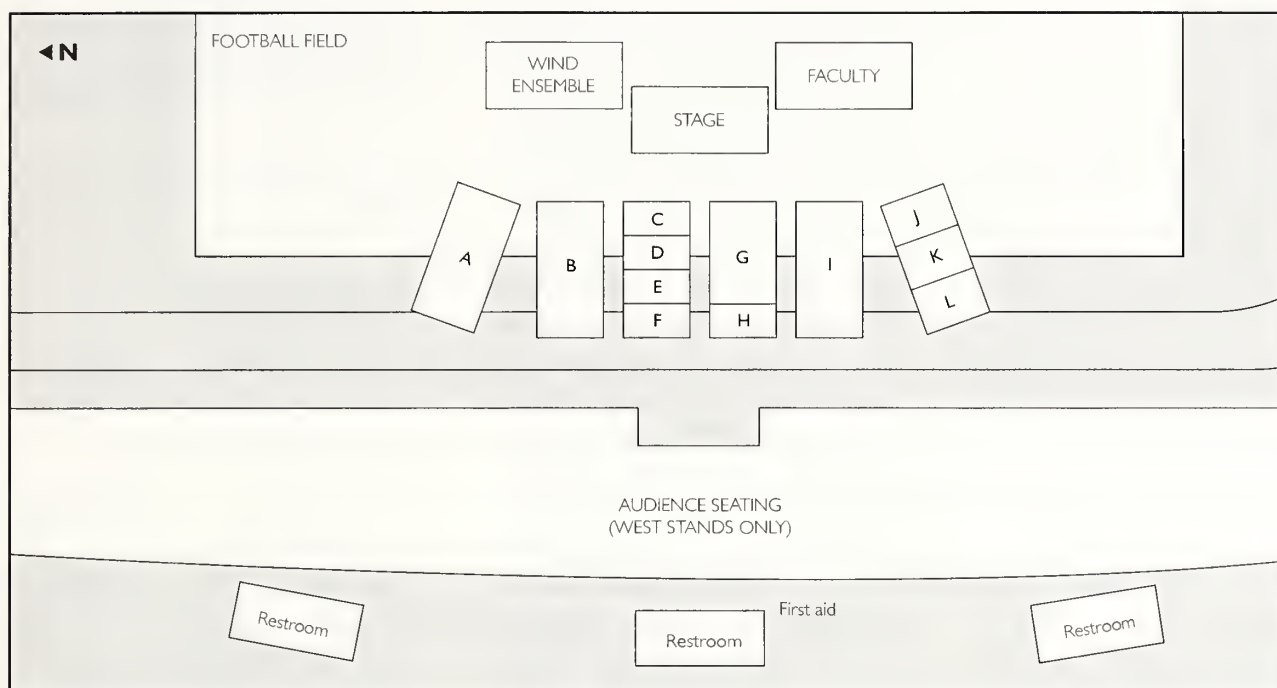

The **J. L. Kellogg School of Management**, established in 1908 as the School of Commerce, offers the master of business administration degree. In addition to the full-time program, Kellogg also offers the evening Part-Time MBA Program on the Chicago campus, the weekend Executive Master's Program on the Evanston campus, and the International Executive Master's Program in Canada, Germany, Hong Kong, and Israel.

The **Feinberg School of Medicine**, established in 1859 as the Medical School, offers the degrees of bachelor of science in medicine, master of medical science, doctor of medicine, and doctor of physical therapy.

The **Henry and Leigh Bienen School of Music**, established in 1895 as the School of Music, offers the degrees of bachelor of music and bachelor of arts in music. In its graduate division, the school offers the degrees of doctor of music and master of music and the certificate in performance.

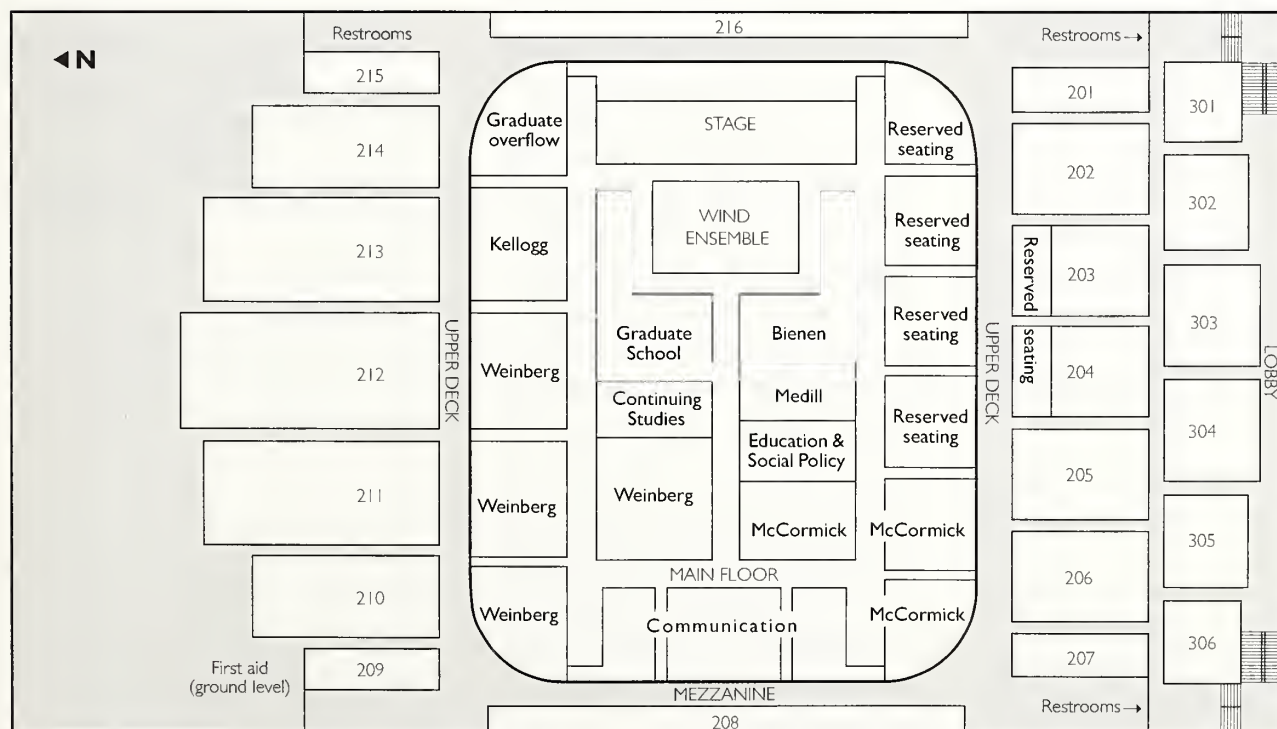

Northwestern University in Qatar, established in 2008 as part of Education City in the Qatari capital of Doha, offers the degree of bachelor of science in communication through the School of Communication and the degree of bachelor of science in journalism through the Medill School of Journalism, Media, Integrated Marketing Communications.

ACADEMIC PROCESSION AND DRESS

ACADEMIC PROCESSION

The procession begins with the participating schools of the University. Each school group is preceded by its banner. The formation within each school begins with those graduates receiving the highest degree awarded by that school; doctoral candidates are followed by master's candidates, who in turn are followed by bachelor's candidates. Following the graduates are the University faculty, trustees, administrators, and deans. The president's party, led by the senior class Commencement committee, completes the procession.

ACADEMIC DRESS

Modern academic attire originated in the medieval universities of Europe, where gowns were worn daily to provide warmth in poorly heated buildings and to differentiate scholars from other citizens. Two English universities, Oxford and Cambridge, are particularly noted for developing the authentic academic costume, which has changed only slightly through the centuries.

In the United States most academic dress follows the general provisions of the Intercollegiate Code of 1895, which was revised in 1932 and again in 1959. Under this code the gowns' trim and sleeve design indicates the level of the degree. The bachelor's gown has pointed sleeves and is worn closed; the master's gown has oblong sleeves with an arc at the bottom and may be worn open or closed; and the doctor's gown, which may also be worn open or closed, has velvet facings down the front and three velvet bars on the bell-shaped sleeves. This velvet trim

may be black or the prescribed color of the academic area. Though the recommended color for gowns is black, Northwestern University (like many institutions) has adopted a colored gown to reflect the school's color. All participating candidates wear a custom purple gown featuring the University crest. Graduates of foreign universities wear gowns of various colors.

The style of hood identifies the level of the degree, the school that granted it, and the academic area. Hood length and border width show the level of the degree. The bachelor's hood, which is optional and not worn at Northwestern University, is three feet in length; the master's, three and one-half feet; the doctor's, four feet. The velvet border of the hood is two, three, and five inches wide for the bachelor's, master's, and doctor's degrees, respectively. The hood is lined with silk in the official color of the school. At Northwestern the hood is lined in purple (the school's color) and gold. The color of the hood's border—and at Northwestern the color of the cap's tassel as well—indicates the academic area. Tassels feature the Northwestern seal signet and are worn on the left side at all times. At Northwestern the colors for the Graduate School constitute an exception; tassels are black, but the border color of the hood indicates the specific degree awarded. Bachelor's degree regalia include a souvenir stole.

The square black mortarboard is the recommended cap, although some schools have adopted other styles. Caps are worn throughout the Commencement ceremony, except that men remove them for the national anthem, invocation, and benediction.

At Northwestern University members of honor societies may be recognized by the honor cords, medallions, and stoles worn.

The tassels and borders of the hoods are the following colors:

Judd A. and Marjorie Weinberg College of Arts and Sciences	White
School of Communication	Silver gray
School of Continuing Studies	
Master of Arts	White
Master of Science	Yellow gold
School of Education and Social Policy	Light blue

HONORARY DEGREES

MIKHAIL BARYSHNIKOV

Doctor of Arts

Mikhail Baryshnikov, a native of Riga, Latvia, began studying ballet at age nine. As a teenager he moved to Leningrad, where he entered the Vaganova Choreographic School, graduating from student to principal dancer of the Kirov Ballet in 1969. In 1974 he left the Soviet Union to dance with major ballet companies around the world, including the New York City Ballet, where he worked with world-renowned choreographers, including George Balanchine and Jerome Robbins. In 1980 he began a 10-year tenure as artistic director of American Ballet Theatre, nurturing a new generation of dancers and choreographers. From 1990 to 2002 Baryshnikov was director and dancer with the White Oak Dance Project, which he cofounded with choreographer Mark Morris. In 2005 he opened the Baryshnikov Arts Center, a creative home for local and international artists to develop and present work. He has starred in several films and has worked in television and on Broadway, earning Oscar and Tony nominations. Among Baryshnikov's many awards are the Kennedy Center Honors, the National Medal of Honor, the Commonwealth Award, the Chubb Fellowship, the Jerome Robbins Award, and the 2012 Vilcek Award. In 2010 he was given the rank of Officer of the French Legion of Honor.

*Presented by Robin Neustein, trustee,
Northwestern University*

Through your legendary work as performer and choreographer and your tireless efforts on behalf of dance and dancers, you have done more to present artistic dance to a global public than anyone in history. You have impressively demonstrated even broader talents in your roles as producer, photographer, actor, and writer. We are proud to call you a Northwestern parent and to welcome you as a member of the Northwestern family.

E. L. DOCTOROW

Doctor of Humane Letters

E. L. Doctorow, the Lewis and Loretta Glucksman Professor of American and English Letters at New York University, occupies a central position in the history of American literature. One of America's foremost living novelists, Doctorow is one of the great writers of the late 20th and early 21st centuries. His work has long been celebrated for its vivid evocations of American life. His numerous awards include the National Book Award, two PEN/Faulkner Awards, and three National Book Critics Circle Awards. His novels *Billy Bathgate*

(1989) and *The Morch* (2005) were finalists for the Pulitzer Prize, and his award-winning novel *Ragtime* (1975) was adapted for the Broadway musical theater. *Billy Bathgate* received the William Dean Howells Medal of the American Academy of Arts and Letters, and in 1988 former President Bill Clinton awarded him the National Humanities Medal. In 2012 he received the PEN Saul Bellow Award, given to a writer "whose body of work places him in the highest rank of American literature." He is an elected fellow of the American Academy of Arts and Letters, the American Academy of Arts and Sciences, and the American Philosophical Society.

*Presented by Frank Golati, Professor Emeritus of
Performance Studies, School of Communication*

With your incomparable series of award-winning novels, you have achieved a commanding eminence among our nation's authors. Your work has not only captivated readers but has inspired filmmakers, playwrights, and creators of Broadway musicals. You have generously shared your insights and talents with new generations of writers as a teacher at New York University and other leading institutions. We are delighted to add to your many honors.

MICHAEL J. HOPKINS

Doctor of Science

Michael J. Hopkins, professor of mathematics at Harvard University, is a leading figure in mathematics. His work has fundamentally transformed the field of algebraic topology, pioneered the application of homotopy theory to a range of areas in mathematics, and created new areas of study. Hopkins received his BA (1979) and PhD (1984) in mathematics from Northwestern University. Hopkins also earned a DPhil (1984) from Oxford University as a result of his work there as a Rhodes Scholar. He became a member of the National Academy of Sciences in 2010, and he received the Academy's highly prestigious Award in Mathematics in 2012. He is also a member of the American Academy of Arts and Sciences and the Royal Danish Academy of Sciences and Letters. In 2001 he was awarded the American Mathematical Society's Oswald Veblen Prize in Geometry. Before joining Harvard's faculty in 2005, Hopkins held professorships at the University of Chicago and the Massachusetts Institute of Technology.

*Presented by Jared Wunsch, Professor and Chair,
Department of Mathematics, Judd A. and Marjorie
Weinberg College of Arts and Sciences*

As the most important mathematician ever to earn a doctorate at Northwestern, you have long been an outstanding ambassador for our University. Your pioneering research in algebraic topology has revolutionized the field, and your influence has extended even further through your teaching and through former students who now hold professorships at prestigious institutions around the world. We are proud to welcome you back as a distinguished member of the Northwestern community.

ELIHU KATZ

Doctor of Humane Letters

Elihu Katz, Distinguished Trustee Professor of Communication in the Annenberg School for Communication at the University of Pennsylvania, has been at the forefront of theory and research in communication and media studies for more than 60 years. Regarded as a pioneer of quantitative and qualitative studies of mass communication and its effects, Katz has been influential not only in communication studies but also in sociology, political science, business and marketing, and policy studies. His first book, *Personal Influence* (1956), coauthored with mentor Paul Lazarsfeld, remains one of the most cited works in political communication nearly six decades after its publication. Katz served as founding director of Israel Television (1968–69) and as principal consultant to the BBC in the 1970s. Recipient of the prestigious Israel Prize (1989) and seven honorary doctorates, Katz is an elected fellow of the American Academy of Arts and Sciences. He is emeritus professor of communications and sociology at the Hebrew University of Jerusalem.

*Presented by Ellen Ann Wortello, Al-Thoni Professor
of Communication, Department of Communication
Studies, School of Communication; professor, Depart-
ment of Psychology, Judd A. and Marjorie Weinberg
College of Arts and Sciences; and professor, School
of Education and Social Policy*

An intellectual leader of the highest order, you are considered the most prominent living scholar in mass communication and the founder of quantitative studies in that field. Your vastly influential books continue to be among the most widely cited writings in media studies as well as in many related fields. Your contributions have extended beyond academia through your work with Israel Television and the BBC. We are honored to salute your remarkable achievements.

DISTINGUISHED SECONDARY TEACHER AWARDS

Phillip Baker is a 20-year veteran of business and engineering management who is now a National Board–certified science teacher. Currently a chemistry and physics teacher at Huntsville High School in Huntsville, Arkansas, he was nominated by McCormick School of Engineering and Applied Science senior Tristan Sokol. Baker has been integral in developing and implementing rigorous curricula for the Huntsville High School science department to increase the likelihood of student success. He received his BS in chemical engineering from the University of Arkansas, completed the executive program at the University of Michigan’s Ross School of Business, and achieved National Board Certification in 2010.

Christopher Esposito, a social studies teacher from South High School in Downers Grove, Illinois, graduated from the University of Illinois at Urbana-Champaign in 2001. In the 12 years since he began teaching social studies, Esposito has earned a master’s degree in educational administration from Northern Illinois University and a PhD in curriculum studies from the University of Illinois at Chicago. In 2011 he was named South High School’s social studies department chair. He was nominated by senior Laura Ledvora of the Weinberg College of Arts and Sciences.

Kelly O’Keefe-Boettcher is an American authors and International Baccalaureate English teacher from Rufus King High School in Milwaukee. According to her nominator, senior Jessica Holden of the School of Education and Social Policy, O’Keefe-Boettcher can make a teenager feel like her classroom is the best place to be every day for 52 minutes as she challenges students to read and write critically while showing a caring and respectful attitude toward everyone she encounters throughout her day. O’Keefe-Boettcher received her BA and MA degrees from the University of Wisconsin–Milwaukee and her teaching certification from Alverno College.

David Quinn is a teacher of English and the theory of knowledge at Edmonds-Woodway High School in Edmonds, Washington. He was nominated by McCormick senior Taiyo Sogawa, who credits Quinn with teaching him to think critically, a skill he applies to his work in computer engineering. Quinn takes a student-centered approach to teaching and served as a mentor for Sogawa in and out of the classroom. As the coordinator of the International Baccalaureate program, Quinn has increased full-IB diploma registration by 100 percent since 2011. Before becoming a teacher, Quinn was an actor whose credits included appearing in national commercials and as a child actor on *Sesame Street*, hosting the Primetime Emmy–nominated science series *3-2-1 Contact*, and winning a Peabody Award as host of that series’ Ryan White program, “I Have AIDS—A Teenager’s Story.” While teaching, Quinn cofounded Allrecipes.com, now the world’s number-one food website, and served as its chair until 2006.

Julianne Schrick is a National Board–certified mathematics teacher with more than 25 years of experience. She has been teaching at Redwood High School in Larkspur, California, since 1995. Her teaching philosophy is based on instilling in students—regardless of their backgrounds or aptitudes—a belief that they can take on hard challenges and succeed. This belief is exemplified in the four seniors who collaborated on her nomination: Danielle Littman and Rachel Abrahams of the School of Communication and Jonathan Kaplan and Daniel Kaplan of the Weinberg College of Arts and Sciences. Over the last six years, more than 80 percent of Schrick’s AP Calculus BC students have received a score of 5. She received her BA in mathematics and MS in education from Dominican College of San Rafael.
